

Precision Meets Simplicity - Complex PCI Guided by a 2nd Generation Fiber Optic Physiology Guidewire

Thursday, May 23, 2019

12h15 - 13h15 | Palais Des Congrès de Paris, Room 252A

Chairmen:

Prof. Emanuele Barbato
Department of Advanced Biomedical Sciences
University Federico II
Naples, Italy

Prof. Olivier Muller
Interventional Cardiologist / Cardiologist
University Hospital, Lausanne
Lausanne, Switzerland

Panelists:

Dr. Benjamin Faurie
Interventional Cardiologist
Groupe Hospitalier Mutualiste of Grenoble
France

Prof. Philip MacCarthy
Professor of Interventional Cardiology
King's College Hospital
London, United Kingdom

Dr. Enrique Gutiérrez-Ibanez
Interventional Cardiologist
Hospital General Universitario Gregorio Marañón
Madrid, Spain

OptoWire[®]

Your pressure guidewire to **diagnose** and **treat** with confidence

Workhorse Guidewire Performance

Large nitinol core wire provides you support and torque response

Worry-Free Reconnect

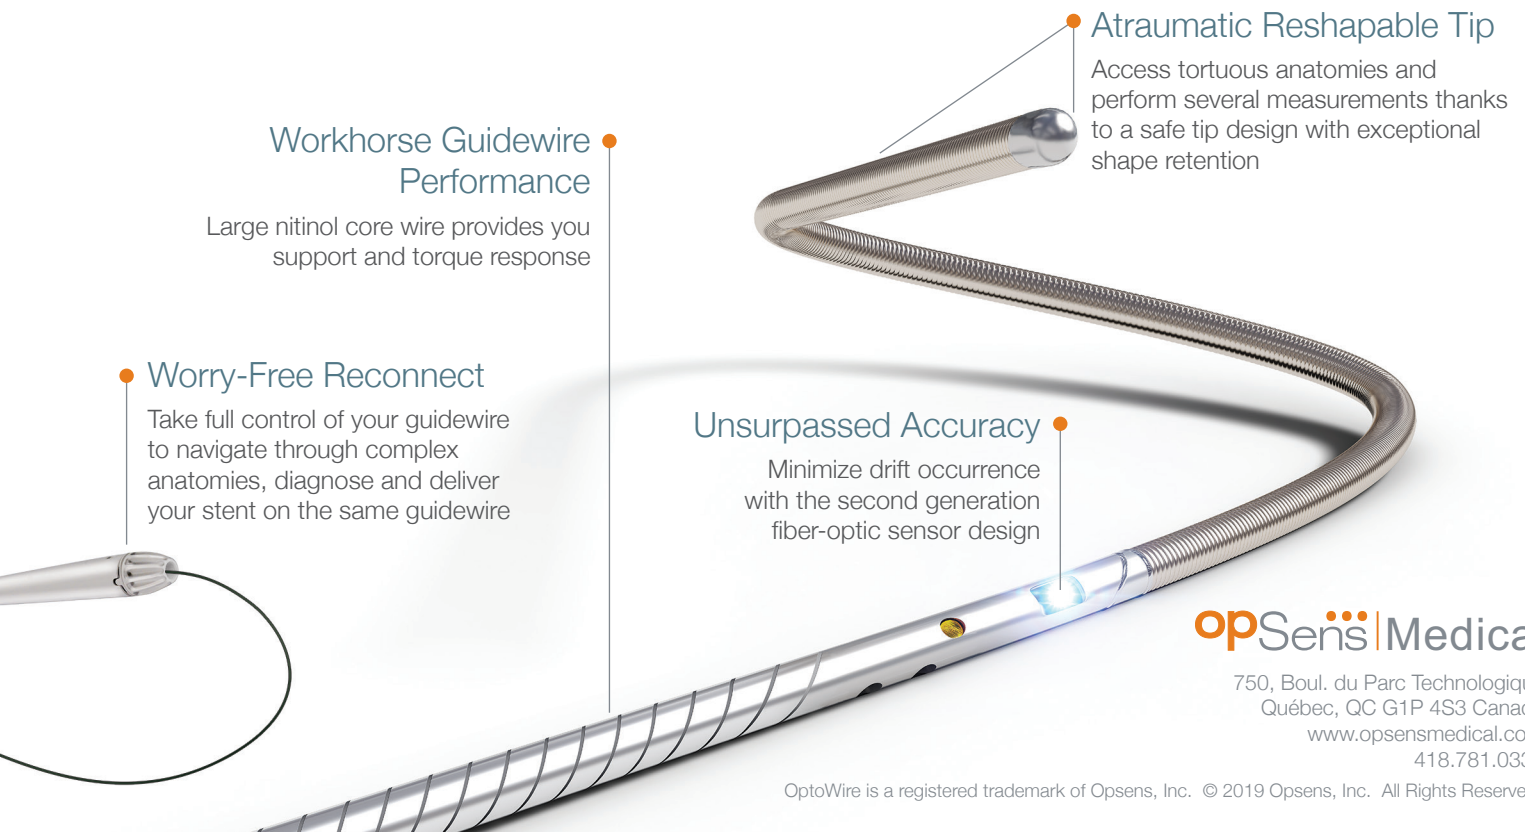

Take full control of your guidewire to navigate through complex anatomies, diagnose and deliver your stent on the same guidewire

Unsurpassed Accuracy

Minimize drift occurrence with the second generation fiber-optic sensor design

Atraumatic Reshapable Tip

Access tortuous anatomies and perform several measurements thanks to a safe tip design with exceptional shape retention
